Warrior/Universal To Release *Changes* by Lareau on July 3

New York, NY—**Warrior/Universal Music Group Distribution** announces ***Changes***, the major label debut of **Lareau** featuring singer/songwriter **Larry Lareau**, drummer **Darrin Payne**, lead guitarist **Pete Gool**, bassist **Roger Christopherson**, and keyboardist **Anthony Brown** on July 3. The album comes with a bonus track, "Change My World," mixed by three-time Grammy-winner F. Reid Shippen

The band—from the Jamestown area of Western New York and the Warren area of Pennsylvania—hearkens back to an earlier era of bands like The Eagles, The Byrds, Buffalo Springfield and America on into other such musically-inclined acts as The Fray, Maroon 5 and The Dave Matthews Band where the emphasis is placed on the actual music, composition and harmonic structure.

In this age of style over substance and studio trickery masquerading as talent, **Lareau** is like a cool mountain stream. The band's title track, "Changes," was among the most added songs on Adult Contemporary radio in the country for the week of June 11, 2007, in such distinguished company as Paul McCartney, Gwen Stefani and Bon Jovi, according to industry trade magazine *Radio & Records*. "Changes," in fact, reached #10 on FMQB's AC chart, and is currently #30 on Billboard's AC chart and #32 on the Mediabase charts.

"We are pleased to be working with **Lareau**," commented **Warrior** President Jim Ervin. "They are a group that demonstrates artistic vision from both a songwriting and performance perspective."

Lareau's music is a feel-good easy-listening blend of sophisticated harmonics, catchy melodies sung in **Larry's** earthy and warm baritone, intricate musical interplay and an overall sense of total joy, complete with uplifting lyrics and a get-you-out-of-your-seat backbeat.
